CURRENT WORK EXPERIENCE

Department of Forestry, Fisheries and the Environment - Pretoria, South Africa

Knowledge and Information Manager

- Established and managed knowledge management units at the national department and nine remote offices across the country
- Developed and implemented KM strategies aligned to departmental policies and objectives to address and achieve the national sustainable development goals
- Improved the country's socio-economic challenges, performance and service delivery by managing knowledge of nine world renowned environmental programmes
- Used the Logical Framework Approach and 5P Approach to promote, strengthen and sustain knowledge sharing, organisational learning and decision making
- Introduced new technologies and virtual platforms to create, collaborate and share knowledge, resulting in improved public service delivery
- Improved the implementation of national environmental projects by sharing best practices and lessons learned, which reduced wasteful and fruitless expenditure by 40%.

FORMER EMPLOYMENT

- **Knowledge and Futurology Specialist:** 20812 Consultancy

Consulted independently during the emergence of knowledge management practices in South Africa and established knowledge management units and systems at public and private companies such as Trans-Caledon Tunnel Authority (TCTA), Technology Innovation Agency (TIA), Sasol, Anix Telecoms, eSoftware Solutions, and Magalies Water.

- **Information and Content Manager:** Department of Agriculture

Improved stakeholder content on departmental websites, attributing to a 65% improvement in agricultural information and disaster management.

- **Information Management Coordinator:** State Information Technology Agency

Established a shared vision for KM strategy with leadership feedback, then developed an executive management portal with 80% user adoption rate across government departments.

- **Intern: Information Services:** South African Reserve Bank

Assisted in the transition of the traditional library to electronic library system. Maintained and promoted the multi-media centre, which attracted new users to the library.
